“FORENSICS, CYBER & ALLIED DOMAINS”

Powered by

Helik Advisory Ltd, Mumbai, ISO certified and Recognised as Research
Centre by Gujarat Forensic Sciences University, Gandhi Nagar, Gujarat.

&

Indian Cyber Institute, Mumbai

A Brief Note

For the first time in India, a dedicated online Forensic and Cyber course with real time crime cases are formulated by a team of Senior Forensic Scientists of the country who have worked in Central Government Forensic Laboratory and Maharashtra Government Forensic Science Laboratory, Govt. Institute of Forensic Science etc. The team is headed by the First Lady Forensic Scientist of country **Dr. Rukmani Krishnamurthy** and **Dr. S.K. Shukla**. Both have brought about radical changes in the Forensic Domain in the country.

While the recent pandemic has hit the entire world and caused everyone to take a backseat, the most important thing we can do is be responsible for our actions. Since Forensics is the need of the hour to combat all crimes, we would like to introduce Online Courses to various individuals/ organizations to address masses with the concept of social and preventive Forensics.

We are the team of country's top brass scientists, experts, academicians, researchers, advocates, technocrats, and educators from the field of Forensics, Cyber, Criminology, Criminal psychology, Cyber Law, and much more.

we are known as a centre of innovation and creativity in the domain of Forensic and Cyber, harnessing this power of innovation and experience for the benefit of budding forensic & cyber experts of the country we have come up with the concept of virtual school of Forensics to provide many online courses

incorporating all our rich experiences of high-tech national level cases in Govt. FSL. [Ref. www.helik.in](http://www.helik.in)

Online course work enables students & professionals to attend a class inside or outside of educational campus, learn advance concepts, skills, training, education, and certification,

The present online course on Forensic, Cyber & Allied Domains covers important domains like

Each student can choose any number of the domain of his interest and will get separate certification for each domain. Each domain will have a free version one pager with detailed information describing the content of each topic. There will be an objective test at the end of 10 days. Students scoring above 50% will be issued a certificate in the respective domain. The charges of each domain would be Rs.3000/- +GST

The certificate from Helik Advisory Ltd and Indian Cyber Institute would be of great value for jobs as well as added knowledge value giving insight of real time crime cases.
