

# HELIK Psychological Services

HELIK Psychological Services is an application of the specialised knowledge of experienced psychologists to solve problems related to human behaviour. Our psychologists work at multiple levels: directly with the individual, individual's part of functional or dysfunctional groups, or in an organisation system as a whole.

## ■ HELIK Forensic Psychological Services

- **Psychological profiling:** A holistic study of a person and his bio-psycho-social background and can be used for cases of malingering, psychological and neuropsychological impairments.
- **Polygraph Examinations:** Measuring physiological changes to rule out whether an individual is deceiving or being truthful.
- **Brain Electrical Oscillation Signature Profiling:** A scientific technique that analyses the electrical activation related to the presence of Experiential Knowledge which is the memory acquired by an individual by participating in an event.
- **Criminal profiling:** A process of developing profile of an individual who has committed an offence based on the behavioral manifestation reflected in a crime scene.
- **Social issues on litigation:** Assessment of the effects of violence, pornography, spouse abuse etc. on an individual.
- **Psychological Evaluation for juvenile delinquents:** To help juvenile offenders who exhibit psychological problems.
- **Victim & witness counseling:** Designed especially for rape victims and minors, whereby counseling services are provided to them to recover from the traumatic incidents.

## ■ HELIK Educational and Career related Psychological Services
